Announcing: Zach Triff as the new Account Manager for the Western Region.

Please join us in congratulating Zach Triff on his well-deserved promotion to Account Manager for Western Region!

Since joining our team, Zach has made significant contributions to our operations. He played a key role in successfully launching our afternoon shift and was instrumental in implementing our cycle counting procedures—initiatives that benefited not only our branch but also several other locations. His dedication, work ethic, and commitment to excellence have left a lasting impact on our operations team.

Zach’s background includes hands-on experience in the electrical field through an electrical apprenticeship, where he developed a strong foundation in wiring and electrical systems. Combined with his operational knowledge and passion for the industry, Zach is well-equipped to take on this new challenge.

While we will certainly miss his presence in operations, we are excited to see him bring the same energy, knowledge, and customer focus to his new role in Sales.

Congratulations, Zach, on your promotion to Account Manager! We look forward to your continued success and the positive impact you will bring in your new role.
